

# Ryan Traficante

Full Stack Web Developer

Wantagh, NY | (516) 413-6184 |

[RTraficante22@gmail.com](mailto:RTraficante22@gmail.com) | <http://www.ryantraficante.com/>

## TECHNICAL SKILLS

**Proficient:** Node, Javascript, React / Redux, Git, Express, PostgreSQL, Sequelize, TailwindCSS

**Knowledgeable:** HTML5, CSS, Python, Firebase, React Native, Next.js, Recoil

## TECHNICAL PROJECTS

**Risky Quizness | Lead Developer** | July 2022 | [View Project](#)

*A web application that allows users to take a daily trivia quiz that increases in difficulty as the quiz continues. Every user gets the same 10 questions that change everyday.*

- Developed with Javascript, React, Firebase Authentication, Firebase Firestore, and TailwindCSS.
- Users can take the daily trivia quiz and have their score posted on a daily and all-time leaderboard to show off their knowledge.
- Users can use the daily trivia quizzes as a way to learn more about categories like history, sports, science, movies, etc.

**Golf GPS | Lead Developer** | June 2022 | [Github Repo](#)

*A mobile app that shows the GPS location of the golfer and the hole they're playing on. Users can see their distance from the hole and update their scores during their round.*

- Developed with React Native, React Native Maps, Redux Toolkit, and TailwindCSS.
- Using AWS4 signature, this application accesses data from a large database that stores information for over 9,000 golf courses in the United States.
- Saves users \$200+ for key information on a course by giving them access to that data using GPS, instead of traditional technology.

**Music Streaming App | Lead Developer** | July 2022 | [View Project](#)

- Developed with React, Next.js, Next Authentication, Recoil, and TailwindCSS.
- Allows users to control the music on their Spotify app from a separate location.
- This application was built responsively to all screen sizes, using TailwindCSS utility classes, to give users a better user experience.

## PROFESSIONAL EXPERIENCE

**Ecommerce Coordinator | PopCrumbs** | Melville, NY

July 2019 - March 2022

- Managed four different Shopify ecommerce sites that grossed over \$10,000,000 year-over year.
- Developed and managed all of the stores' email marketing and customer retention efforts via Klaviyo and Constant Contact, leading to a growth up to over \$150,000 per month.
- Collaborated with the fulfillment team to accurately forecast inventory needs, resulting in a more efficient fulfillment process for the team and the customers.

## EDUCATION

**Fullstack Academy Web Development Certification**

March 2022 - July 2022

Software Engineering Certificate

Full-time, Full Stack Javascript Web Development Immersive

**Farmingdale State College**
